

Bring Your Own Device (BYOD) Setup

If you are in a Bring Your Own Device program, your laptop must be configured to MTI's network. This can be done anytime during the month of August. Please stop in the Technology Center, Room 156 (IT Help Desk) to do so.

The IT Help Desk is open Monday through Friday from 8 a.m. to 4 p.m.

If you are not able to visit campus to have your BYOD laptop configured before the start of school, there will be time during Orientation on Monday, August 20 for you to visit the IT Help Desk.
